**PETITION FOR REINSTATEMENT OF A PATENT APPLICATION
UNINTENTIONALLY ABANDONED UNDER 37 CFR 1.135(a)**

SIR:

Applicant, through his attorney, hereby petitions for reinstatement of the above-identified patent application which, apparently, required a response to a final office action, dated July 27, 2001, which was apparently mailed to an incorrect address of Applicant's attorney.

On February 19, 2002, Examiner Kamen telephoned Applicant's attorney and inquired if it was Applicant's intention to abandon the above-identified application by failing to respond to a final rejection, which allegedly was mailed to Applicant's attorney on July 27, 2001. During the telephone conversation with the Examiner, Applicant's attorney reviewed the file and indicated to the Examiner that Applicant's attorney never received a final office action, in the

above-identified application, from the United States Patent Office. The last paper that appears in Applicant's file is a Status Inquiry, copy enclosed as Exhibit A, which was mailed to the United States Patent Office via United States Postal Service First Class Mail on December 17, 2001, inquiring as to the status of the application because Applicant had not received any action by the Patent Office to Applicant's amendment filed on July 13, 2001. Additionally, I am forwarding a copy of the post card (Exhibit B) which was enclosed with the status inquiry, indicating that the Patent and Trademark Office received our status inquiry letter on January 18, 2002, over one month after the mailing of the Status Inquiry.

During the conversation today with Examiner Kamen, Examiner Kamen indicated that the final rejection was mailed to Applicant's attorney at 300 South Wacker Drive, Suite 300. Because Applicant's attorney is located in Suite 3000, this may be the reason why Applicant did not receive the final office action from the Examiner.

If there is any petition fee that is necessary to revive this application, the United States Patent Office is hereby authorized to charge Deposit Account No. 05-1060 for such fee.

Furthermore, in my conversation this morning with Examiner Kamen, he indicated that there would be no charge for reinstating this patent application if it can be established that the unintentional abandonment was not the fault of Applicant.

A duplicate copy of this petition is attached, together with copies of our Status Inquiry letter and enclosed post card (Exhibits A and B) indicating receipt by the U.S. Patent Office.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made

are punishable by fine or imprisonment or both, under §1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon or any patent to which this verified statement is directed.

The granting of this petition is respectfully requested.

Respectfully submitted,
